

FGi Responsible Advisory: Empowering Ethics, Driving Sustainability

Who We Are

FGi, an ISO 9001:2015 Certified U.S. Small Disadvantaged Business, delivers global support services to government entities and humanitarian efforts. Specializing in providing solutions to the development industry for 10 years.

Our mission is to alleviate unemployment and poverty. We engage with local communities, fostering economic growth through job creation for successful stability operations.

IS YOUR COMPANY MAXIMIZING YOUR FUNDING OPPORTUNITIES?

Private firms are able to directly seek funding for development projects in conflict-affected areas from Development Finance Institutions (DFIs) like IFC and EBRD.

To secure success firms, must be in compliance with the DFI's environmental and social performance standards.

FGi Responsible Business Advisory can elevate your company's compliance for more successful submissions to the DFIs.

OUR VALUE PROPOSITION:

- Strategic selection of projects most eligible for funding.
- Ensuring your company is compliant with DFI standards.
- Ensuring your funding application addresses key DFI requirements.

Advisory Services

FUNDING FROM MULTINATIONAL BANKS

- We assist clients in identifying available funds for their projects and guide them through the process of securing these funds.

PERFORMANCE STANDARD ASSESSMENT

- We assist clients in assessing their adherence to performance standards, offering insights into potential costs and advising on steps towards compliance.

RESPONSIBLE SECURITY MANAGEMENT

- We collaborate with your company's security management staff to ensure the implementation of appropriate standards and processes.

SOCIAL IMPACT GUIDANCE

- We evaluate and improve your company's positive impact in line with the UN Sustainable Development Goals, setting you apart in an era where responsible business practices are crucial.

HERE, WE EXPLAIN THE CONSULTING PROCESS IN FOUR STEPS:

PROJECT CONCEPT

You choose a project aligned with DFI's objectives (e.g., investing in fragile states, renewable energy). FGi assesses project viability for DFI financing and recommends targeted DFIs.

01

DETERMINING RISKS AND ASSESS CONFORMANCE WITH STANDARD

FGi helps define Labor, Security, and Community factors, identifies project risks, and assesses adherence to Performance Standards through a thorough desktop evaluation.

02

DEVELOPING ROADMAP FOR E&S

FGi develops the roadmap for Environmental & Social (E&S) conformance (a E&S Action Plan - ESAP)

03

EVALUATION AND EXECUTION

FGi reviews E&S Management system to evaluate adherence to Performance Standards and can assist in closing identified gaps, i.e., fulfilling the ESAP as agreed with the DFI.

04
